MADIGAN SCHOOL-BASED HEALTH SYSTEM CONSENT FOR SERVICES
Rogers High School 2017-2018

The Madigan School-Based Health System is a joint effort of multiple local School Districts and Madigan Army Medical Center (MAMC) designed to promote the physical, behavioral and emotional well-being of military dependent adolescent students at their schools. The program is a response to recent national mandates, including the Army Family Covenant and the Department of Defense (DOD) Mental Health Task Force, calling for greater military and community collaboration on behalf of improving the quality of life for our nation's warriors and their families.

WHAT IS A SCHOOL-BASED HEALTH CENTER? It is a comprehensive, primary care center located in a school. The staff includes pediatricians specializing in adolescent medicine, family medicine physicians, resident physicians, family nurse practitioners, registered nurses, licensed practical nurses, medics and administrative staff.

WHAT DO SCHOOL-BASED HEALTH CENTERS DO? School-based health centers provide comprehensive physical, emotional and behavioral health care services such as the diagnosis of acute minor illnesses and injuries; management of chronic illnesses such as asthma, immunization updates; screening for emotional and behavioral concerns; parent guidance; classroom consultation on wellness issues; and referrals to community providers as needed. Other complicated concerns may be referred for appropriate services at MAMC, or in emergency situations, to the Emergency Department co-located at MAMC.

HOW CAN A STUDENT USE THE HEALTH CENTER? Generally a student **must** have a consent form signed by his/her parent or guardian to receive health center services. If the student is 18 years old or older or emancipated, he/she can sign his/her own consent form. The consent form is valid for the 2017-2018 school year and will be maintained at the school clinic for availability by the medical provider to ensure student eligibility for medical services. For complex medical decision making, parents will be notified by telephone during the clinical encounter in an attempt to provide feedback regarding their child's current condition when appropriate. Parents have the option to be present during the clinical appointment at the schools. Parents or guardians may withdraw the consent, provided by this authorization, at any time in writing.

Appointments can be made by calling TRICARE at (800) 404-4506 and specify the appointment is for School Based Health Center. Appointments can also be made at the Pediatric Adolescent Clinic (253) 968-1980. If you have any questions regarding the operation of the program, please call the phone number listed below.

The Madigan School-Based Health System team will provide health services at the following locations **0800-1130**:

<u>Clover Park School District:</u>	Harrison Preparatory School	Wednesdays	(253) 968-1980
	Lakes High School	Mondays	(253) 968-1980
	Mann Middle School	Thursdays	(253) 968-1980
	Woodbrook Middle School	Fridays	(253) 968-1980
<u>Puyallup School District:</u>	Rogers High School	Every Other Friday	(253) 477-5051
<u>Steilacoom Historical School District:</u>	Steilacoom High School	Mondays and Thursdays	(253) 968-1980
	Pioneer Middle School	Tuesdays	(253) 968-1980

CONFIDENTIALITY: The Madigan School-Based Health System adheres to all current state laws regarding confidentiality of health services in general and specifically as they relate to services to minors. Parental consent will not be required when state or federal law gives an eligible military student beneficiary the right to consent for services without such parental consent. The Notice of Privacy outlines how Madigan may use and disclose your teen's protected health information at MAMC. All student information and documents maintained by the Madigan School-Based Health System will be handled by health center personnel only.

The participating School Districts and MAMC are committed to maintaining a partnership that ensures easy access to health care for all eligible military beneficiaries. By operating a health center at schools, MAMC offer beneficiaries a unique opportunity to promote a safe and healthy school environment for all students. Madigan staff will cooperate and communicate with the school staff whenever student behavior or health may result in risk or harm to the student or others within the educational setting. The Madigan staff will follow policies and procedures developed by MAMC as well as district board policies and procedures. Completing and signing the attached form authorizes participating schools to release and receive information as identified in the MAMC Privacy Notice.

I have read the above and understand the above statements. This consent expires June 30, 2018.
