

RENAISSANCE at home

FOR FAMILIES: Supporting Students using Freckle Premium

Dear Families,

We are using an online, adaptive program in the classroom called Freckle. With Freckle, your student has been able to practice Math, ELA, Social Studies, and Science at their own level. You and your student can access the program at home, too.

Access Freckle:

Log in through Clever:

1. Go to clever.com/in/puyallupsd and select **Log in with active directory**.
2. Log in with your student's full email address and password.
(`firstname.lastname@students.puyallupsd.org`)
3. Click the Freckle app icon.

Once logged in, it is important for your student to work independently. Freckle provides helpful hints and supports if they are having difficulty with any content and they can choose to stop and try something else.

Freckle at Home

You can support your student's learning by helping them practice at home. For example, you can work with your student on Adaptive Practice and Fact Fluency in Math. It is suggested that students in K–6 complete one adaptive session per day.

Students can practice ELA on their own, too! They just need to select ELA at the bottom of the student dashboard. Then, they can choose to do Word Study, Skills Practice, or read an article.

Thank you for supporting your child's education at home.
