School begins September 4 in the Puyallup School District

The first day of school in the Puyallup School District is Wednesday, September 4.

School calendars, bell schedules, lunch menus, bus information, school supply lists, maps and directions, and other back-to-school information is on the school district website at www.puyallup.k12.wa.us.

The district is no longer scheduling early school dismissal and late arrival each Wednesday. Rather, all schools will start one hour later each Monday that school is in session. For more information, read a news article posted on the school district website.

With the start of a new school year, motorists are asked to be cautious of children walking or riding their bikes to and from school and to slow down in school zones.
